My AMAZING FACTS books

I’ve had 8 books published by Amazing Facts, and over the past 30+ years they have sold around a half million copies….

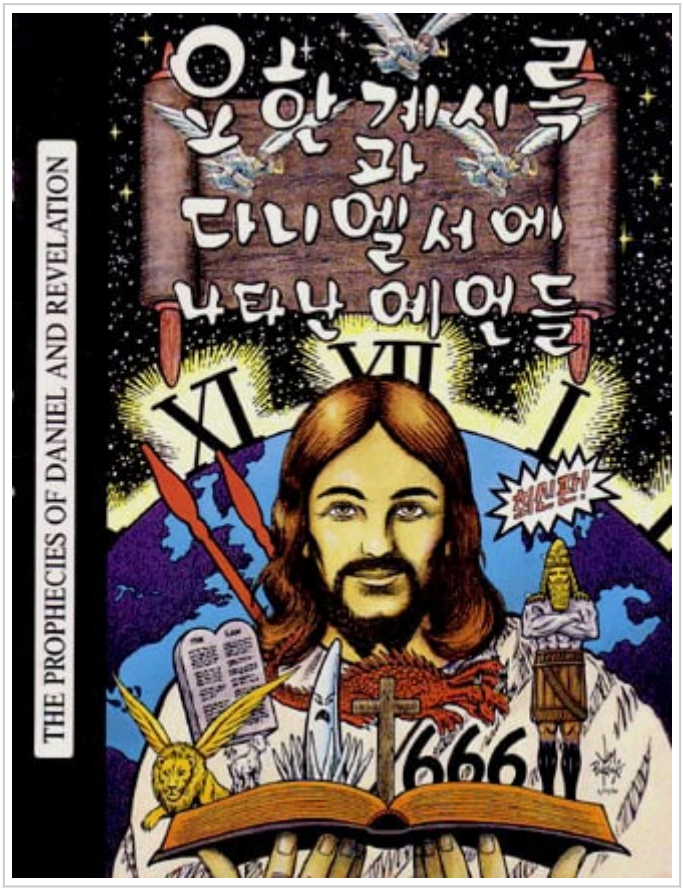

My 1st book was ***The Prophecies of Daniel and Revelation***… published in 1986…

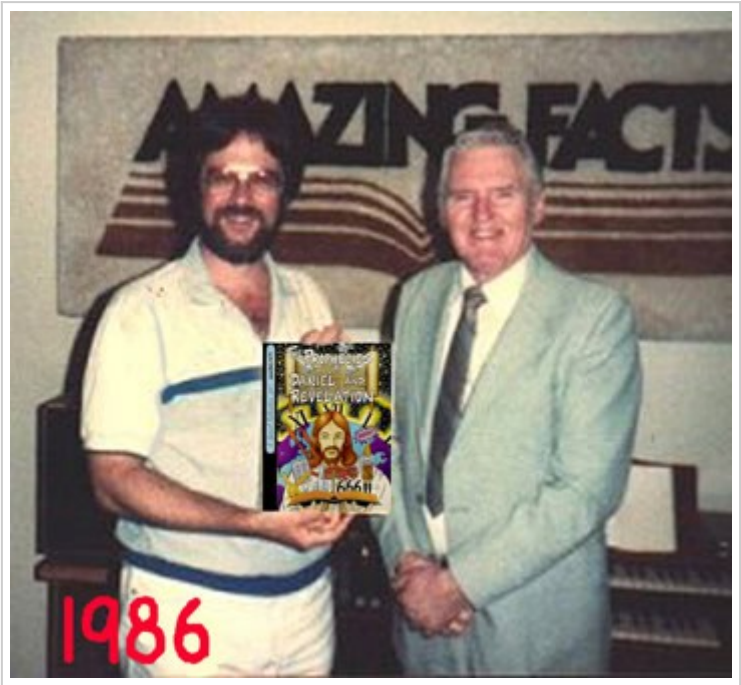

Yes, Bible prophecy is complicated — and while it's impossible to know everything regarding this topic, there are many subjects that *can* be easily interpreted in the light of history. I have studied this topic for over three decades, and in the years since I completed this book I have never felt it necessary to make any changes to this book — it explains the Mark of the Beast, 666, and the signs of the End Times — and these things are the same things that Ron Wyatt believed in!

This book was also translation into Korean…

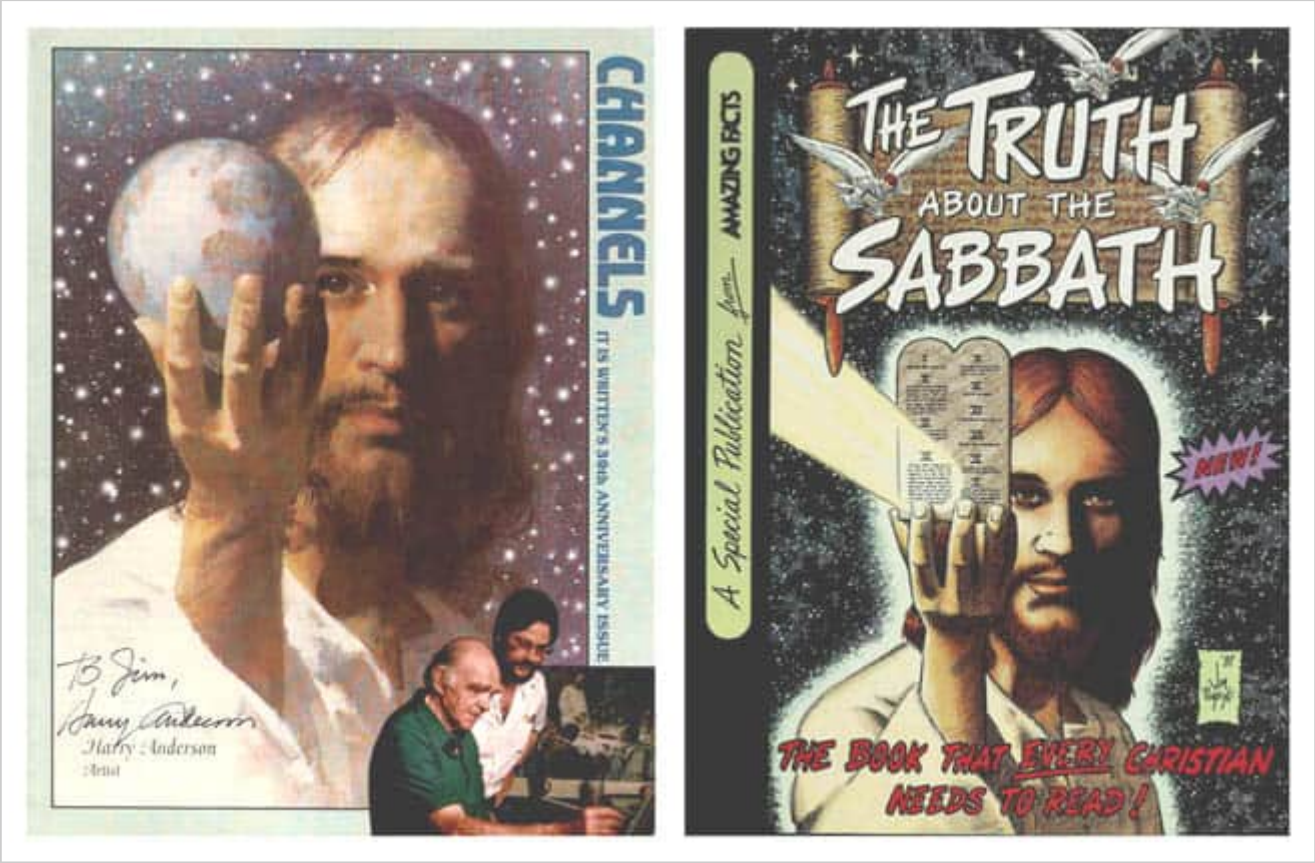

At the time **Joe Crews** was the head of Amazing Facts....

* * *

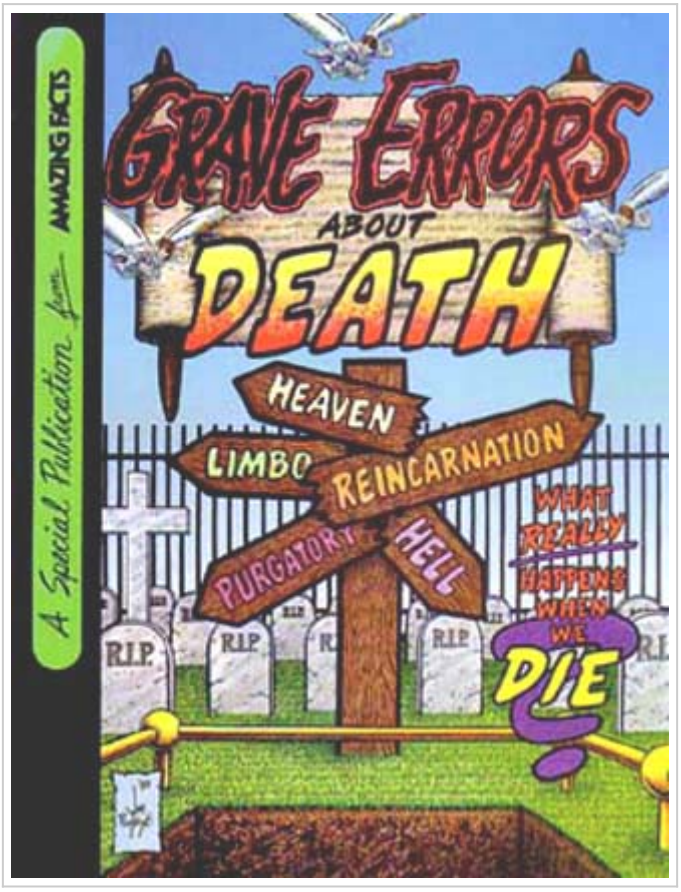

My 2nd book was ***The Truth About the Sabbath*** (published in 1987) — the cover was inspired by Harry Anderson's beautiful painting of Jesus holding the world — I met Harry Anderson and he gave his permission for me to use and adapt his painting for my cover…

This is the most important Bible topic for people to study — GOD created the 7th day Sabbath during Creation Week, and Isaiah 66 says that all the redeemed will be keeping the 7th day Sabbath throughout Eternity in the New Earth — so why are most Christians worshipping on the historically pagan day of the week, Sun-day?? This book explains it all…

* * *

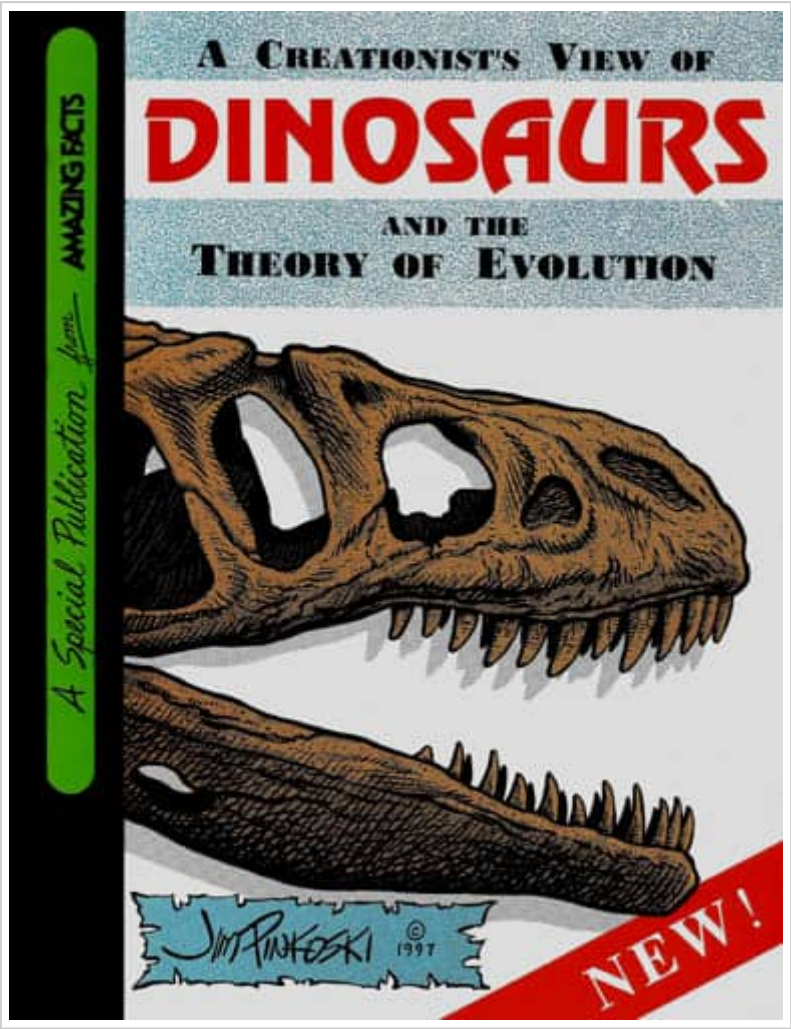

My 3rd book was ***Grave Errors About Death*** — (Joe Crews came up with the title, he liked “catchy” titles)… published in 1989….

What does the Bible say happens to us when we die? Does Hell burn forever? Is anyone in Heaven or Hell right now? This is a study that is 100% biblical — and it is exactly what Ron Wyatt also believed, the man whom GOD used to find the ashen remains of Sodom & Gomorrah that was burned with an example of "eternal hellfire"…

* * *

My 4th book was ***A Creationist's View of Dinosaurs and the Theory of Evolution***, published in 1997…

Everybody loves “dinosaurs” — the Bible says the world was created about 6,000 years ago, and secular scientists who reject GOD and Scripture say that dinosaur fossils are “millions of years” old — but true science is proving that Darwin’s evolution is a totally fictitious belief system!

* * *

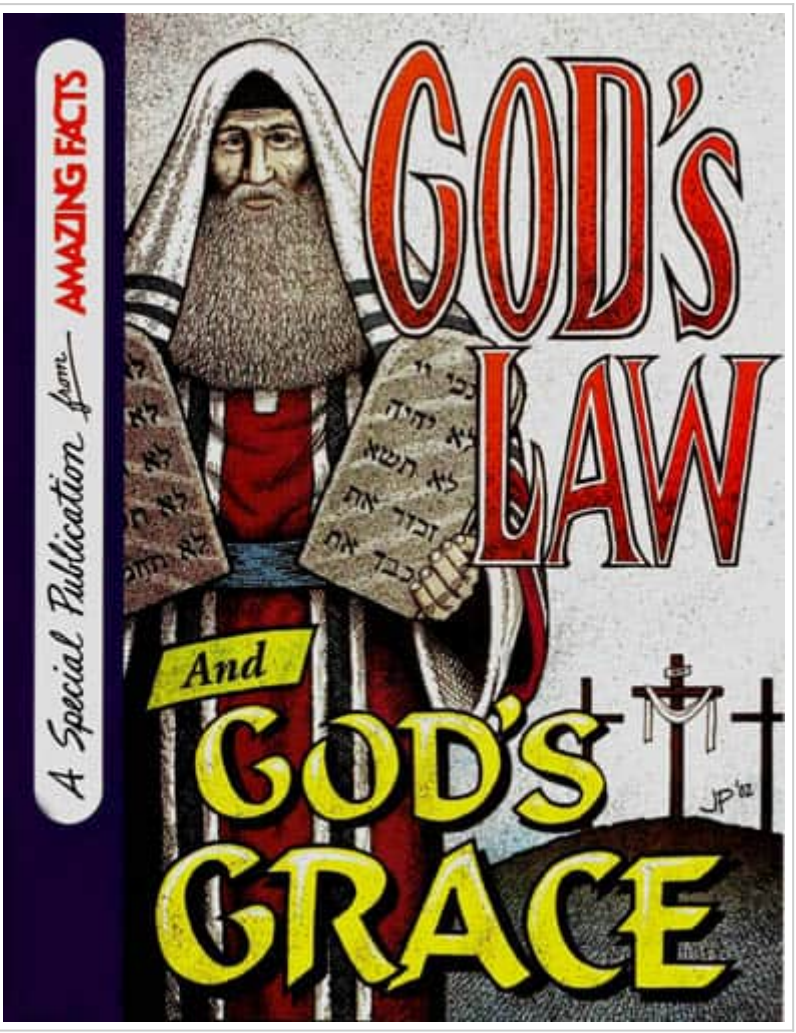

My 5th book was ***The Second Coming, Are You Ready?*** — published in 1999....

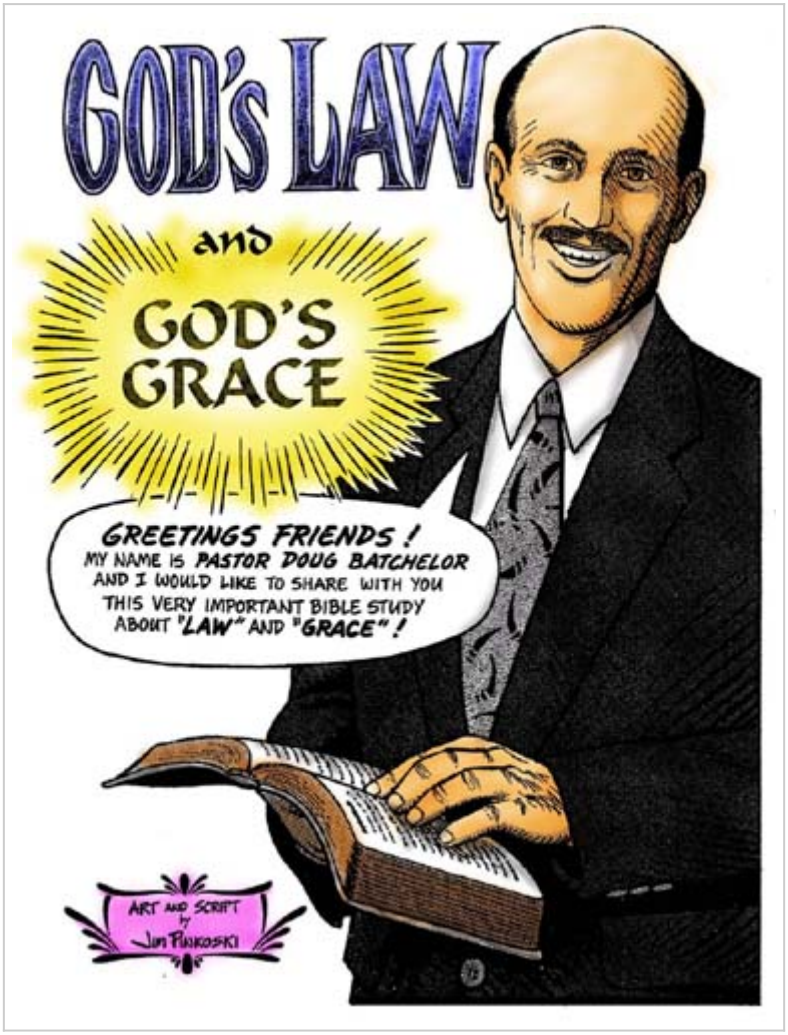

The Bible says that Jesus' 2nd Coming will be "as lightning," so that's how I drew the cover — with *lightning!* The 2nd Coming is only going to happen *one way* — this book explains the Truth of this awesome event, and this is the interpretation believed by Ron Wyatt and millions of Christians!

* * *

My 6th book was ***God's Law and God's Grace*** — published in 2002....

A Special Publication from AMAZING FACTS
GOD'S LAW
And
GOD'S GRACE

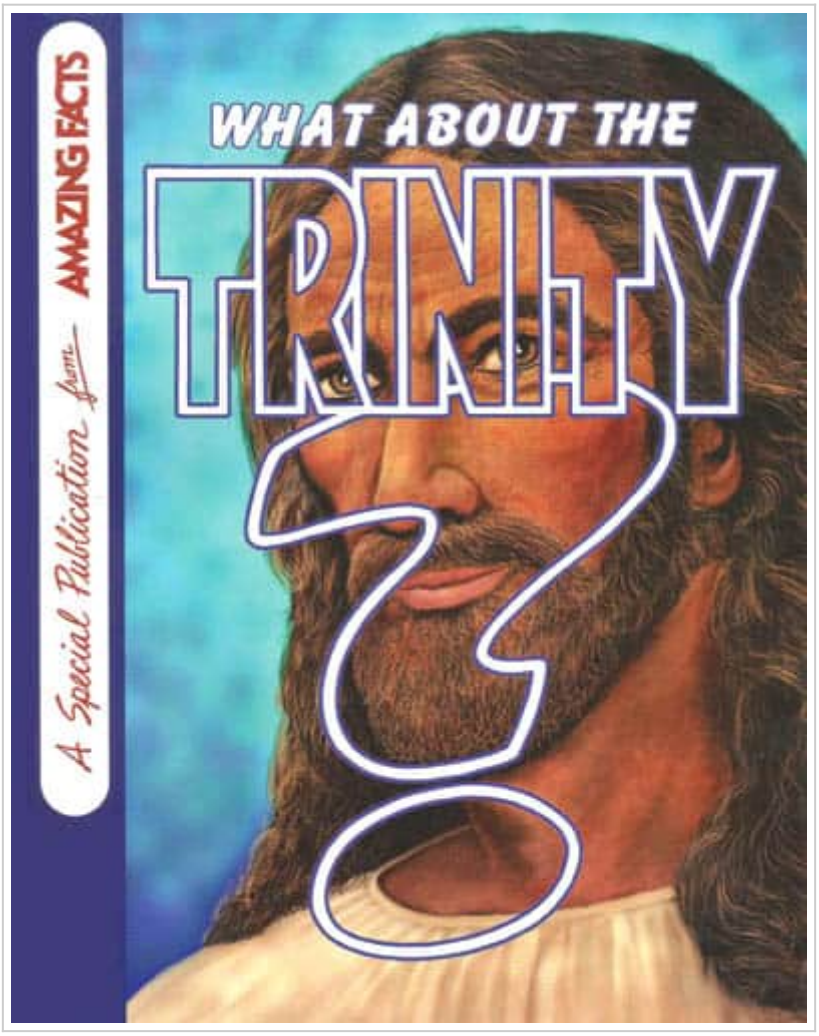

Pastor Doug Batchelor had replaced the late Joe Crews as the head speaker for Amazing Facts, and I drew Doug as one of the narrators of this book…

The Truth of the matter is that GOD gave mankind 4 different sets of laws — **(1)** the Ten Commandments Moral Law, **(2)** the Ceremonial Law containing animal sacrifice, **(3)** the Civil Laws to guide society, and **(4)** the Health Laws including the clean/unclean animals — *and only one of these laws was ever "nailed to the cross"…* and we have to carefully understand how GOD's Grace relates to these laws, our salvation depends upon it.

* * *

My 7th book was ***What About the TRINITY?*** — published 2007….

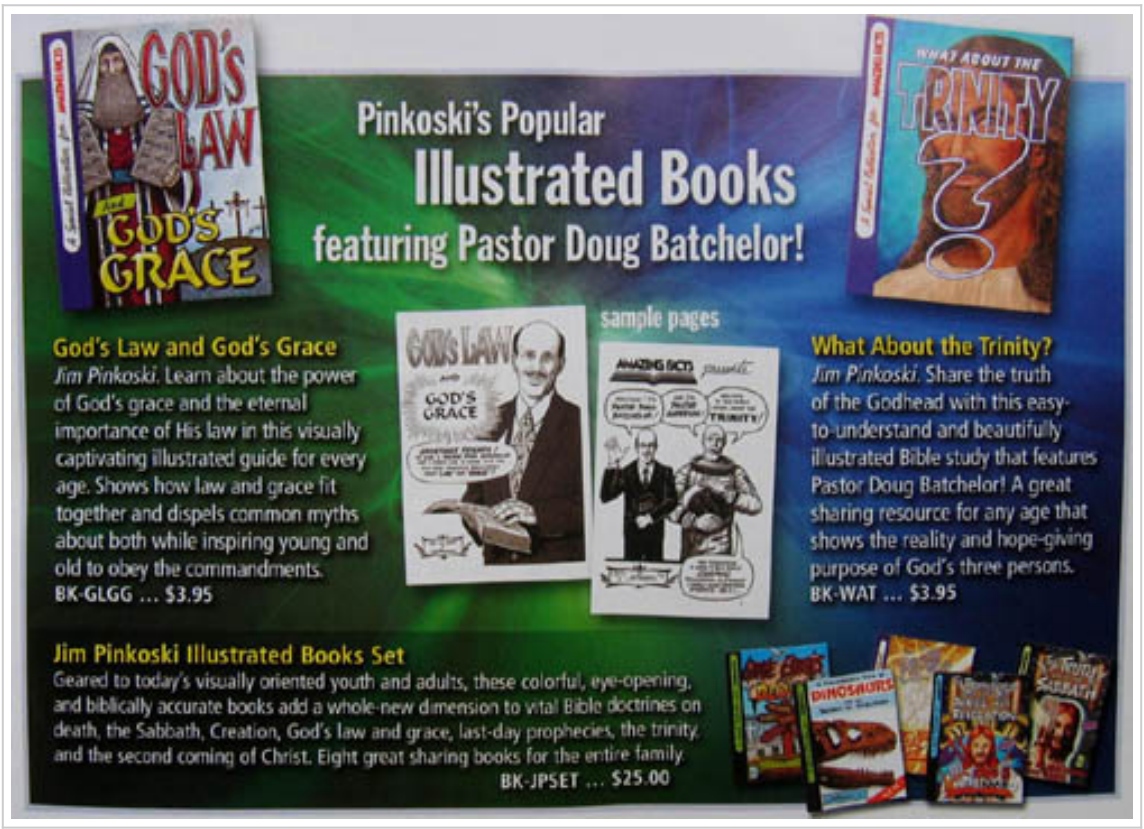

I was actually surprised to hear that people had a problem with accepting the Trinity — so I did this final and 7th book for Amazing Facts — and again, this is exactly what Ron Wyatt believed in — the Three Persons of the Godhead!

* * *

In 2013 my 8th book was a collection of my ***Winning Team*** children's health comic strips that were originally done in 1986-1990…

This is one of the several ads AFacts has run for my books over the past years....

In 2019 I added *color* to the interior pages of my **SABBATH** book and my other 7 books…

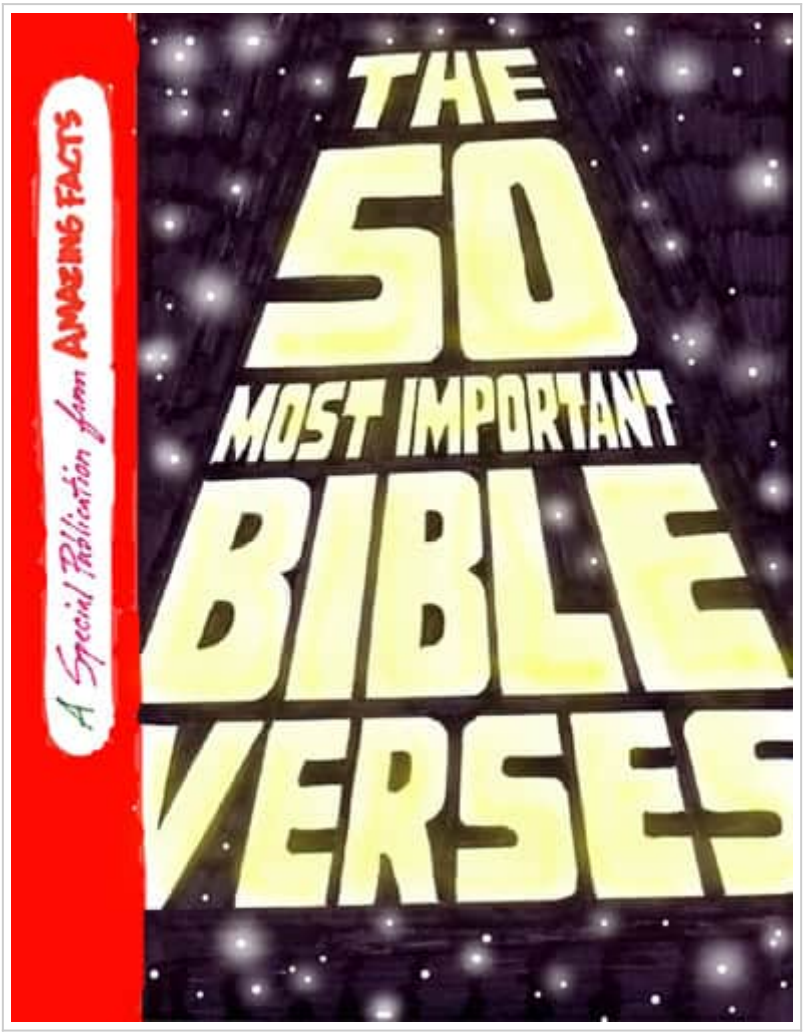

If anyone wants to get copies of these books, contact me via this website's Contact Page

* * *

The Book that Never Happened

Back in 2006 I was impressed to do another book entitled **"The 50 Most Important Bible Verses"** — this was one of my several possible cover sketches…

I laid out all 56 pages — here’s a pic of them on our kitchen floor….

I began doing the art for some of the pages, like this one that featured Desmond Doss…

If anyone would like to see my list of those 50 Bible verses, just let me know — Verse #1 began with Genesis 1:1, and Verse #50 was Philippians 1:6b...

During this time Amazing Facts was working on doing some major video/film projects, and I knew they were heavily invested in them — so I decided that this book would not be a “necessary” book for them to do, so I stopped working on it and I put it away in my files unfinished. They had published 8 of my books, and I felt that those were sufficient.

My Art on the DEVIANT ART webpage...

In 2019 I finally posted a sampling of my artwork on their website:
